## ABOUT

I am a developer and an enthusiastic coder.

I have been working on Node.js, MongoDB for backend development and React.js, Angular for the frontend development.

I've also started learning Amazon Web Services (AWS), Docker, GraphQL and look forward to learn many more other aspects of web development.

I love to code! I have knowledge of programming languages like C/C++ in Competitive Coding and Java for Android App Development.

I am also a PC gamer who loves to play games on casual as well as competitive level.
